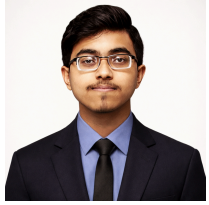
# ATIK YEASIR

*Software Engineer*

atik.yeasir.se@gmail.com 01796469766 Dhaka, Bangladesh



## SKILLS

**Languages:** C/C++, Java, JavaScript, C#, Html, Css

**Frameworks:** Springboot, Asp.net Core, React/Next.js,

**Analytical Skills:** SDLC, OOP, Databases(SQL Server, MySQL), Problem-Solving, Data Structure, Algorithms, Logical reasoning, Identify patterns.Microsoft Office (Word, Excel, PowerPoint),
**Soft Skills:** Leadership, Teaching, Mentoring, communication, Time management.

## PROBLEM SOLVING

**CodeChef:** Solve Count 100+, **LeetCode:** Solve Count 25+, **CodeForces:** Solve Count 50+,
**HackerRank:** Solve Count 50+

## CONTEST PROFILE

**ICPC regional contest Dhaka Preliminary, ICPC regional contest Dhaka** 2021 (BUBT) Participated in

**Intra University Programming Contest** 2022 (Varendra University)

## PROJECTS

**Professional Experience**

**Web Application & CMS Development Projects (WordPress & Laravel)**
**Technologies:** WordPress, Laravel, PHP, Blade, MySQL, cPanel, phpMyAdmin, Payment Gateway
- Worked on multiple **client-based web projects** including **export-import business websites and e-commerce platforms**.
- Developed and customized **WordPress websites** with responsive UI, SEO-friendly structure, and user-focused navigation.
- Built **Laravel-based backend systems** for e-commerce applications (grocery and clothing stores).
- Implemented **user authentication, role-based access control, and admin dashboards**.
- Integrated **secure online payment gateways** for order processing and transaction management.
- Designed and managed **relational databases** using MySQL and phpMyAdmin.
- Linked contact forms, email notifications, and live chat / WhatsApp integration.
- Ensured clean, maintainable code following **MVC architecture** and real-world business requirements.

**Personal Experience**

**Travel Planner API**
*Technologies: ASP.NET Core Web API, Entity Framework Core, SQL Server, JWT Authentication*
- Developed a RESTful API for managing travel plans, allowing users to create, view, update, and delete trip details such as destination, budget, and travel dates.
- Implemented JWT-based authentication and authorization to ensure secure user access.
- Designed database models and relationships using Entity Framework Core with Code-First approach.
- Connected the backend to SQL Server for efficient data storage and retrieval.
- Created structured API endpoints supporting user registration, login, and trip management.
- Ensured scalability, modularity, and maintainability through layered architecture (Controller, Service, Repository).

**AI-Powered Portfolio Assistant (Voice-Enabled)**
*React, Tailwind CSS, Node.js, Groq LLM API, Web Speech API (STT & TTS), JavaScript, GitHub, Vercel*
- Designed and developed a responsive portfolio website with an AI-powered conversational assistant for interactive navigation.
- Integrated Groq-hosted LLM inference to generate intelligent, context-aware responses from user queries.
- Implemented section-aware knowledge retrieval (RAG-style logic) to ensure accurate, portfolio-specific answers.
- Built intent detection and pronoun resolution to support natural follow-up questions.
- Added speech-to-text and text-to-speech using the Web Speech API for hands-free interaction.
- Implemented AI-driven smooth auto-scrolling and deployed the project using GitHub and Vercel.

## EDUCATION

**Bsc in CSE, Varendra University** 01/2021 – 01/2025
CGPA: 3.00(On a scale of 4.00) Rajshahi, Bangladesh
